

Williamsburg Middle School Presents a Lunch and Learn Series: The Dangers that Loom

February 28, 2023

12:00-12:30 PM

Topic: Fentanyl

Summary: Every day, 150 people die because of an overdose. This series will educate you on the dangers of Fentanyl and learn about its direct impact on our community.

March 14, 2023

12:00-12:30 PM

Topic: Counterfeit Pills

Summary: Counterfeit pills often contain lethal amounts of illicitly manufactured Fentanyl. These are extremely dangerous because they often appear identical to legitimate prescription pills, and the user is likely unaware of their contents or lethality. Join this seminar to learn more about counterfeit pills and their impact on our community.

March 21, 2023

12:00-12:30 PM

Topic: Synthetic Substances

Summary: A synthetic substance is a designer drug, that is a structural or functional analog of a controlled substance. These substances have been designed to mimic the pharmacological effects of the original drug, such as heroin, ecstasy, and Fentanyl, while avoiding classification as illegal and/or detection in standard drug tests.
