## A special note about the Sora books and magazines:

When you log in to Sora, the app knows you are a middle school student.

If you have a younger brother or sister in an APS elementary school, your sibling will not see the same books and magazines in their Sora app as you do in yours.

Similarly, you do not see all the books and magazines your teachers see, so do not be surprised if a teacher demonstrates something on Sora and the content looks a little different.
